CAIMEC

“dal disegno al pezzo”

CAIMEC si rivolge a tutte le imprese che necessitano di realizzare pezzi meccanici su specifico disegno.

CAIMEC riceve dal proprio cliente il disegno con le specifiche e le tempistiche dei pezzi da produrre (flange, viti, alberi, camme, carpenterie, ecc)

CAIMEC ricerca il miglior fornitore in grado di rispettare i parametri indicati dal cliente, propone un tempestivo preventivo e una data certa di consegna della merce dal ricevimento dell'ordine ed effettua un controllo qualità sui pezzi.

WWW.CAIMEC.COM è il portale da cui effettuare richieste d'offerta e controllare lo stato di avanzamento del materiale in ordine.
